NOTE

It is possible that the present compilation contains minor inaccuracies. Any corrections or additions would be gratefully incorporated into a second printing.

Omitted from this itemization of readings are the Open Readings which took place every Monday of the season from 1966 until the fall of 1973, when the new Monday programming began (Open Readings the first Monday of each month, with the other Mondays given over to scheduled readings and performances). In other words, there are approximately 280 Open Readings not itemized on the list that follows.
